## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Clavin [US 5,754,412] in view of Mayer [US 6,695,629].

Regarding claim 1, Clavin discloses a standoff connector, comprising a body (11), a base (13) disposed at a lower end of the body, the base having a section less than that of the body, a handle (20) disposed at a top end of the body, a neck (12) connected with the handle and the body, and at least one flexible wing (31) disposed on a surface of the body.

Clavin discloses the instant claimed invention except for the body being formed of a cylindrical, a neck formed between the handle and the body, the neck having a diameter smaller than a width of the handle and wherein at least the body, neck and handle are formed in a single unitary piece.

Mayer discloses a standoff connector (106, figures 1 and 6-7), comprising a cylindrical body having a diameter (figures 6-7); a base disposed at a lower end of the body, the base having a diametric dimension greater than the diameter of the body (figures 6-7); a handle (600) disposed at a top end of the body; a neck (602) formed between the handle and the body, the neck having a diameter smaller than a width of

the handle; and wherein at least the body, neck and handle are formed in a single unitary piece (figures 6-7).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the standoff connector design of Mayer in Clavin, for the purpose of enabling secure the standoff connector with a base/circuit board.

Regarding claim 2, Clavin further discloses a tab (32) being disposed at a lower end of the wing based from the base.

Regarding claim 3, Clavin further discloses the tab having a thickness no more than the thickness of the wing.

Regarding claim 4, Clavin discloses the handle comprising two projections (42) at opposite sides thereof.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure Joannou [US 6,237,970] discloses a latch fastener mechanism.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2841

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung S. Bui whose telephone number is (571) 272-2102. The examiner can normally be reached on Monday-Friday 8:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kamand Cuneo can be reached on (571) 272-1957. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
